TRIBUTE TO GEN. LAWTON. Private Soldier's Estimate of His

Qualities as an Officer. Private Robert E. Smith, who served in Company G of the 2d Regiment of Oregon Volunteers, under General Lawton, pays this tribute to the worth of the dead gen-

"In the death of General Lawton I feel that the American people and the soldiers in the Philippines have suffered an irreparable loss. In General Lawton's famous six weeks' campaign last spring, which ended with the capture of San Isidro, we suffered many hardships. We were in an unknown and trackless country, far from our base of supplies, but we soon realized that we were under a brave, skiliful and humane commander. General Lawton was said to be the only officer on the island who issued an order in regard to the condition of the feet of the men in the ranks. Every officer was given instructions to inquire night and morning as to the health of every man in his command, and report to General Lawton as to the condition of the men's feet for marching.

"General Lawton's interest and solicitude for the welfare of the private soldier will always be to us a sweet memory of a noble man, and the well-to-do American citizen can find it not only an honor, but a privilege, to respond generously to the call for the relief of the family of General Lawton. Ask one who served under him in his hard campaign and hear the story." our base of supplies, but we soon realized

Policeman Grove succeeds Policeman Colleen Flathers, who was formerly in charge of the work. The policeman is supposed to accompany the wagon on every hunt it makes for dogs, a special carriage being provided for his purpose. Horse Badly Injured.

One of the east-bound cars of the Metropolitan railroad collided with a team of Littlefield & Alvord this morning shortly before 9 o'clock at the east end of the P street bridge. The driver of the team had guided the horses away from the curb line to avoid some ice, and the car, coming along at a rather rapid gait, struck one of the horses and threw him down. An ex-amination led to the belief that the ani-mal's spine was fractured, yet in the hope that the injury was less it was removed in an ambulance to the stables of the com-pany.

Wants a Safe Skuting Space. Mr. Samuel C. Johnson has directed a letter to the District Commissioners suggesting the setting aside of a small sum of money for the purpose of clearing the snow off of a portion of the Potomac river, and also off the basin at the bathing beach for the benefit of the skating public. The sum of \$50 or \$100 would be amply suffi-

sum of \$50 or \$100 would be amply sufficient for the purpose, it is stated.

Mr. Johnson in his letter calls attention to the fact that December 31 there were fully 4,000 persons on the lee at the bathing beach, while on the river around Georgetown there were perhaps 500 more, including many ladies and children and members of foreign legations. The light fall of snow Sunday night hid the holes and cracks in the surface, making skating dangerous, yet notwithstanding this fact there were thousands of people on the ice the day following, moving about paths that had been cleared by boys and colored men.

that had been cleared by boys and colored men.

Had there been a clean surface there would have been at least 10,000 people out on the ice, according to the estimate of Mr. Johnson, and the number will keep up as long as the ice lasts.

The writer also suggests that the Commissioners detail one or more police officers at the basin every day while skating is in season to see that large crowds do not congregate on the ice within a radius of at least 100 feet, and to prevent the boys from playing the dangerous game of bandy on the spots where the ladies and girls are enjoying themselves. These skaters, armed with sticks, make skating dangerous for almost any person, and should, in the opinion of Mr. Johnson, he made to confine their sport to a certain area. The writer is of the opinion that twenty-five men at a total cost of \$40 or \$50, could clean at least five or six acres of surface in one day, giving sufficient room for all skaters.
